

New York Jan. 26. 1879.

Dear Mr. Garrison:

13

I have mailed  
you today a copy of the  
February North American  
Review containing an  
article by me in the  
Southern question. Very  
likely you will have  
the Review but it is  
still pleasant to me to  
send you a copy. I have

after a sickness of only four days. Our hearts  
seem broken and we see little real consolation  
except such as time may kindly bring us.

He was ~~the~~ very centre of our house and  
hopes, always sunny, loving and bright.

but "he is in his grave, and O the difference  
to me!"

I most earnestly hope you are well  
and that all those whom you love are also

read your recent letter and  
the extracts from a letter  
received by you from a  
Federal officer, and I  
need not say how com-  
pletely I agree with and  
approve all you have said.

I know we shall have  
you & Mr. Sympathy in the  
loss of our darling boy.  
Hugh, — our second. He  
died of malignant scarlet  
fever on Tuesday last

well. With the kindest regards of Mrs. Chamberlain  
and myself to you and your sons, I am

Yours very Truly

D. H. Chamberlain
